

Mobile App Instructions & Scoring

Scores for TPWGC play days will be reported using the Golf Genius app.

Please go to your app store and download the free app.

Golf Genius 4+
 Golf Genius Software, LLC
 Designed for iPad
 #154 in Sports
 ★★★★★ 2.8 • 173 Ratings
 Free

Each foursome will need to identify **ONE** person in the group who will be responsible for posting the **unadjusted gross scores** using the app.

The group should have at least one other player keep score using a regular Torrey Pines scorecard.

<p>Step 1 Score keeper will sign in using her email and password. TPWGC does NOT use GGIDs</p>	<p>Step 2 Tap “ENTER SCORES”</p>	<p>Step 3 Enter each player’s score and tap “Save Scores”. You will then be directed to the next hole.</p>

If a player does not finish a hole, click "X" as the score. If a player does not play a hole, leave the score blank. The system will calculate the correct scores based on the current USGA rules.

End of the Round:

Submit your scores as soon as you complete the 18th hole. The submission will timestamp your round. That timestamp is used to determine pace of play and gaps between groups.

After the submission, the app will ask if you would like to proceed to the End of Round Summary page. Click yes then you can verbally verify hole-by-hole scores and make any necessary corrections before saving the scores again. It is suggested that each player look at the scorecard in the leaderboard of the Golf Genius app to confirm the scores called out match what is reflected on the scorecards. These will be the official scores which will be used for Results.

Scores **MUST** be entered as soon as the round is completed. Corrections must be made **BEFORE** you leave the course. Once you leave the course, your scores become final. Final results for the round will be available 36-48 hours after the round closes. Players without posted scores at the end of their round will be disqualified and will not be eligible for sweeps/tournament prizes.

DO NOT POST THE SCORES TO GHIN!!!!

Scores are automatically uploaded to GHIN.
